Strand: Past, Present and Future

Dinosaurs

Curriculum Level 1

The **Dinosaurs** module is designed to support the learning of key science concepts within the *Living World* and *Nature of Science* strands.
Through reading these books and participating in group and class discussions, students will grow their knowledge of dinosaurs. They will look at concepts of evolution, survival and extinction. After completing this module, it would be expected that students would have developed skills and knowledge to meet some of the demands of Science Level 2.
