Strand: Physical and Material World

Forces

Curriculum Level: 2

The **Forces** module is designed to support the learning of key ideas within the Science curriculum.

In this module, students will get an introduction to forces. This module will help develop the nature of science strand, in particular encouraging students to think like scientists. There are opportunities for students to develop and conduct experiments using the principles of fair testing.

After completing this module, it would be expected that students have developed some of the knowledge and skills required to demonstrate success at level 2 of the curriculum.
